## GERMANS CLAIM ABOUT 60,000 PRISONERS IN DRIVE

### ITALIANS HARD PRESSED UNDER NEW OFFICERS

Official Statement from Rome Admits that Situation is Very grave

#### ARDOR OF ENEMY CONTINUES UNABATED

Berlin War Department Issues Statement on Progress of Campaign

Berlin, Oct. 27.—Sixty thousand Italians have been taken prisoners by the Austro-German forces in their offensive on the Italian front, the army headquarters announced today. Guns to the number of 450 have been captured.

Rome, Oct. 27.—A semi-official statement issued last night says the struggle on the Isonzo is more than bitter, and that its alternatives are undecided. The situation created by the power of the enemy, the announcement says, is "certainly grave."

The statement says headquarters has taken necessary measures, and that if the troops remember that on 10 different occasions they defeated the enemy on this formidable Carso position, he is unlikely to tread the national soil. The thanks of the country are due to the Fifth Bersaglieri brigade, which, in the last few days has held the Globocak position the Austro-German forces are defending it by indefatigable and magnificent counter attacks during which prisoners have been taken.

"The enemy's ardor continues very strong," the announcement says "all along the Monte Maggiore Auzza line, at the head of its confederate enemy regiments are headed toward Cidiale."

Having crossed the Italian boundary line, between Monte Canin and head of the Judrio valley, the enemy is attempting to reach an opening on the plains, says today's official communication.

#### Capture Stoll.

Emperor Charles is commanding the Austrians in the Italian pressure. The mountain ridge of Stoll has been captured from the Italians, as has also the summit of Monte Matajur, says the official announcement.

The statement claims the defeat of the second Italian army and that the Isonzo front of the Italians is imperiled as far as Mippach.

On the Carso front the Italians are maintaining their positions.

The Austro-German forces are making strong attacks on the Carso front. They were repulsed by the Italians.

#### GRAVE INROADS.

(By Associated Press.) Grave inroads upon Italian territory are being made by the powerful Austro-German army that broke through the Italian lines on the northern Isonzo front. Already, according to Berlin, no less than 60,000 prisoners and 450 guns have been taken by the invading forces.

The German official statement declares the second Italian army has been defeated, and that almost the entire Isonzo front of the Italians well down to the Carso, is imperiled by the Austro-German thrust.

It is semi-officially admitted in Rome that the situation is considered extremely serious, with the enemy north-west of Gorizia well on the road to Giviale, which is some five miles within Italian territory, and seeking an opening to force his way through to the Italian plains. Attacks also have begun further south on the Carso front, but these have been repulsed by the Italians.

#### First Line Trenches.

American infantrymen have gone in to the first line trenches on the French front, and the American artillery has fired its first shot of the war.

Announcement of the presence of some battalions of American forces in the first line trenches was made in the first official statement issued in the American headquarters in France. The men are stationed in one of the quietest sections of the trenches on the French front, the sector not having been taken over by the Americans.

### T. R.'S GRIN SHOWS HOW IT FEELS TO LOSE 14 POUNDS

"De-lighted!" How else describe Theodore Roosevelt's joyful relief at the disappearance of his—his—well, his aldermanic front? His pose shows how it feels to lose 14 pounds—which is just what he did, at the rate of a pound a day, by vigorous training at Jack Cooper's roadhouse near Stamford, Conn.

### TOWNLEY URGES LEAGUE HEADS TO WATCH STEP

President Says Organization is Under Fire and on Trial—Demands Caution

A. C. Townley, president of the Non-partisan league, is said to have made the big speech of his life in an impromptu 10-minute talk which he gave league members of the administration who tendered him a dinner at the Grand Pacific last evening. Townley had not enjoyed a particularly pleasant afternoon, under the grilling which Francis J. Murphy, attorney for some of the bankrupt's creditors, gave him in the hearing before Referee O'Hare. Therefore, when asked to address the state officials whom he has created, he took a slant which some of his hosts evidently did not expect.

"The league is on trial," said Townley. "You are on trial. Your every act is being watched. If you fail, it is not to the farmer, out here on the prairies, to whom you alone are accountable, but to the entire league. Whether you expect to be re-elected or not, so conduct yourself and the work of your office that no reflection can come on the league." Townley was wound up, and a good leaguer who heard his talk pronounced it a "dinger."

**IN GRASP OF STORM.**  
Duluth, Minn., Oct. 27.—Lake Superior is in the grasp of another October storm. Many ports report high winds running to 45 miles an hour. Saint Ste. Marie reports strong southeasterly gales all yesterday, and the downtown fleet is held up at Detroit. Not a boat has left the mouth of St. Mary's river in 24 hours.

### LIBERTY LOAN NEARING FOUR BILLION MARK

\$435,000,000 Yesterday's Gain in Advance on the Hindenburg Line by U. S. Dollars

NORTH DAKOTA'S QUOTA WILL REACH \$8,000,000 NEARLY TEN MILLION.

Fargo, Oct. 27.—The state of North Dakota has oversubscribed its quota of \$5,000,000 by 67 per cent according to an announcement made today by Chairman Hanna, who said that up to noon today the reports showed that \$9,477,000 had been subscribed to the second issue of liberty loan bonds. Reports are still incomplete. Chairman Hanna said, and additional subscriptions will boost the total purchase over the \$3,500,000 mark. Farmers who failed to subscribe for the first issue Mr. Hanna said, were heavy buyers of this issue.

Washington, D. C., Oct. 27.—With yesterday's advance of \$435,000,000 in subscriptions, the Second Liberty loan is approaching the four billion mark and the close of a splendid campaign which is without parallel in the history of this country. With the tremendous drive being waged by two million local campaigners, it was predicted this morning that before night the goal of five billions will have been reached, and America again will have accomplished the impossible in the world's war for democracy and peace.

"Let every American patriot who has not already subscribed today place his name on the nation's roll of honor as a subscriber to the Second Liberty loan," was the appeal issued by Secretary W. G. McAdoo this morning. "The man who is able to subscribe and does not will or ought to be a conscience-stricken citizen on Sunday morning."

**\$8,000,000 for Dakota.**  
North Dakota's goal of \$7,000,000 will be exceeded by a full million dollars, was the prediction of former Governor L. B. Hanna, state chairman for the Liberty Loan, today. "Tabulations already on hand take us well past our quota of \$7,000,000," said Mr. Hanna early this morning. "We had expected to get all reports in today so that we could send our total to A. K. Rogers, Ninth district chairman, but bad weather has made it impossible."

**Good For Dickey.**  
Dickey county wires from Oakes through Chairman Thomas F. Marshall: "Subscriptions east half Dickey county total \$100,000, all individual. Total number subscriptions over 600. We claim honor of largest percentage of farmers subscribing and largest number of townships in which every farmer has subscribed."

Chairman H. P. Goddard for Burleigh county wired Chairman Hanna that \$65,000 had been subscribed; Joseph M. Kelley wired from Devils Lake that Ramsey county has gone \$275,000. The total raised in Fargo at the close of business Thursday was \$1,042,000.

### COAL PRICES ANNOUNCED

Washington, Oct. 27.—The fuel administration announced today a scale of bituminous coal prices for Michigan and made price changes in certain fields of Montana, Arkansas, Illinois, and Missouri. The Michigan prices are: Run of mine, \$3.15; prepared sizes, \$3.50; slack or screenings, \$2.20.

These prices have no connection with recommendations made in a letter to President Wilson yesterday by Fuel Administrator Garfield, concerning increases of prices at the mines of bituminous coal as the result of increased wages.

### FRENCH GAIN VITAL PLACES ON AISNE FRONT

Allies in Position to Pour Enfilading Fire Upon Germans

TENTONS MAKE EFFORTS TO SET UP NEW DEFENSES

Prisoners Taken Declare That Their Officers Retired and Deserted them

**CABINET RESIGNS.**  
Madrid, Oct. 27.—The Spanish cabinet has resigned.

With the French Armies in France, Oct. 27.—However great may be the praise bestowed on the French troops for their brilliancy over the Germans north of the Aisne this week, it is too small an appreciation of their Herculean efforts in the face of one of the most difficult tasks of the war.

This is the opinion not only of their immediate chiefs, but of all who have seen them at work. Fronting them were the finest divisions of the crown prince's army, occupying positions that were strongly fortified and having the keenest appreciation of their value.

Notwithstanding this, the French not only attained every objective set for them, but extended the hopes of the most sanguine and advanced beyond the appointed places. More than 11,000 prisoners already have been counted and sent to the rear. Others are coming in and large groups are still hiding in subterranean shelters.

**Elain Dominated.**  
The French line now runs along the southern side of the Aisne-Oise canal, without a break from westward of the Auxallion to Pargny-Flain, while the town of Elain has been completely dominated. The correspondent today watched the French infantrymen, who after four days of almost uninterrupted fighting, were busily employed digging themselves in along the new fronts. Their extraordinary exertions had not extinguished their good humor and willingness. Notwithstanding privations and suffering from weather conditions, and icy cold rain storms, drenching them at intervals, they worked with pick and shovel as energetically as they had done with rifles and grenades during the furious battle.

**Artillery Quiescent.**  
The German artillery, which showed activity last evening was quieter today because the French battery had mastered it. The French superiority in this arm is demonstrated by the proportion of shell wounds to bullet wounds among the French wounded. On this occasion, only three men were wounded by shell splinters to one by the bullet.

The French guns now are able to enfilade the German positions in three directions.

The Germans last night made strenuous efforts to establish artillery in the ravines behind the plateau, but were greatly discommodated by the French bombardment, which left them no respite and quickly silenced their fire. The crown prince also hurried up infantry reinforcements to help his distressed Prussian guard and other divisions which had been badly mauled.

Prisoners taken declared they had been without food three days, and that all their officers retired and left them without commanders.

Poelderhoek (Chateau, on the Ypres front, which the British entered yesterday, was in the hands of the Germans today. Hard fighting is continuing.

The terrible condition of the ground prevented as much of an advance yesterday as was desired. Nevertheless, the main purpose of the attack, and occupation of the Bellevue spur was achieved.

#### TO EVACUATE HELSINGFORS

Petrograd, Oct. 27.—Preparations are being made in Helsingfors for the evacuation of that city according to a telegram received here today. A report from Stockholm says that in view of the easy advance in Russian territory the Germans are preparing for a defense on Finland and profiting by their propaganda, expect to be able with small forces to capture the Russian troops without resistance and to cut the railway at Tornio, severing communication between Russia and Sweden.

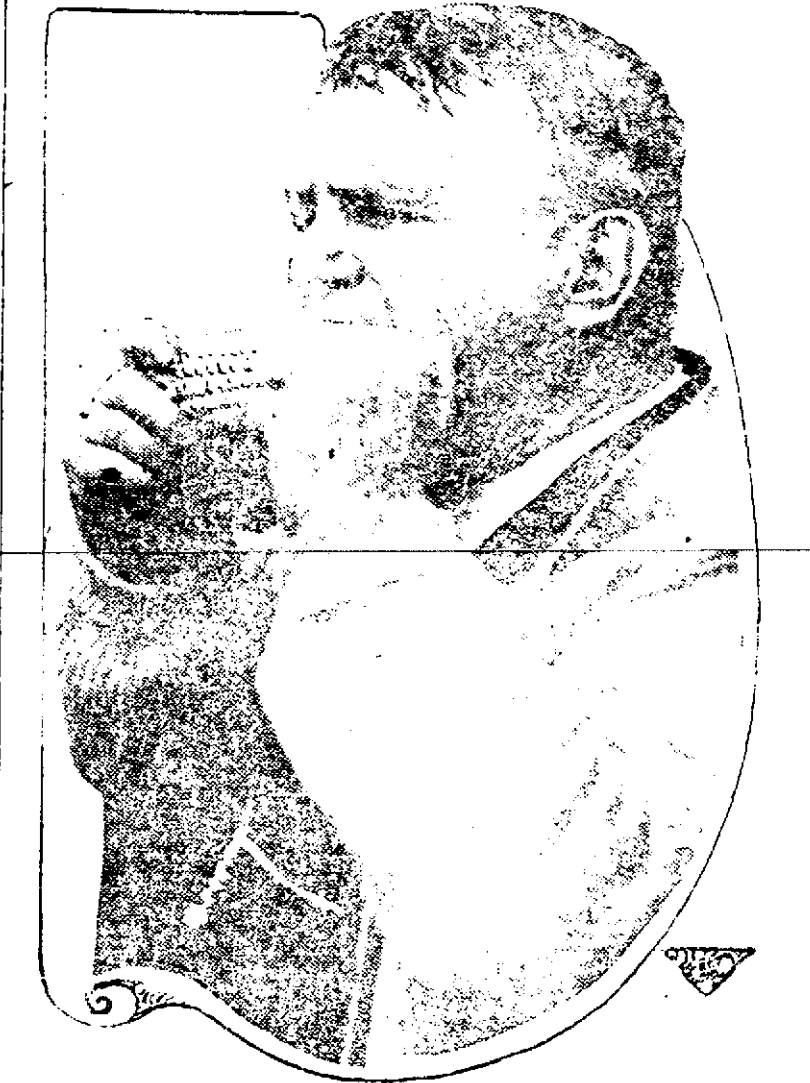

### MISS HELEN CUDAHY COMMITTS SUICIDE

Paris, Oct. 27.—Miss Helen Cudahy, daughter of Patrick Cudahy, the Milwaukee meat packer, committed suicide in mid-ocean on Oct. 19, according to the army edition of the Chicago Tribune.

Fear of submarines is believed to have prompted Miss Cudahy's act, according to the newspapers.

### Biggest Eater Defies Appetite to Save Food

HE WILL CENSOR HIS MEALS TO HELP HOOVER CONSERVE MEAT, WHEAT AND SUGAR

Gus Hanna, champion eater, getting on the outside of an ear of corn at a roasting ears party.

**HOOVER ASKS HELP.**  
Food week starts tomorrow. Pledges are to be signed throughout the nation enlisting in the great movement to conserve food so that our Allies may not want. The editor of The Tribune is in receipt of the following wire from Herbert Hoover, food administrator:

"Homes are united for food conservation. With families enrolled, America is invincible. Washington looks to you."

The "you" means every reader of The Tribune. From day to day, The Tribune will assist this food conservation campaign. Many ministers plan on preaching sermons urging the necessity of thrift.

**By BIDDY BYE.**  
Cleveland, O., Oct. 27.—I have just talked food conservation with Ohio's champion eater—Gus Hanna, who claims possession of the biggest appetite in captivity. This is his record meal, stowed away during an eating contest and authenticated by watchers, timekeepers and umpires:

Two bowls soup.  
Eight spring chickens.  
Twelve ears of roasted corn.  
Four large baked potatoes.  
Four tomatoes.  
One bunch of celery.  
Eight radishes.  
One-half loaf of bread.  
Seven pretzels.  
One-half pie.  
That's a pretty hefty meal for one person to get away with and not call

for the doctor. But Gus Hanna says he could eat more than that "if things didn't cost so much."

His gain, so cut down on his eating during food conservation week, and it his stomach will stand for it he hopes to keep running on a well measured menu during the rest of the war.

To help win the war this heavy-weight eater will—  
Have six meatless days this week.  
Three slices of whole wheat bread instead of a whole loaf each day.  
Spareless coffee.

"I have been feeling my face so well all these years that I can't cut down to a bird's diet all at once, so I guess I'll take on more potatoes and Johnny cake to make up the deficiency."

Hoover says it's all right to eat spuds and corn to one's heart's content.  
Hanna is 62; says he was never sick, day since he can remember, feels like he was "about 40," and works every day. He has to work steady, he explains, or his appetite would bankrupt him.

A 10 years ago, while secretary of War, Hanna was mayor of Cleveland, he accepted Hanna's roasting ears challenge. Hanna offered to hand-can himself by eating a dozen ears before Baker started, but Baker had confidence in his own appetite.

When Baker was on his third ear, Hanna was reaching for his eleventh. One more ear finished Baker, while his opponent went to 18. Never again did Newton Baker brag about his food capacity.

### AMERICANS IN FIRST LINE OF FRENCH DEFENSE

Enter Trenches with Seasoned Veterans Supported by our Artillery

MEN ADAPT THEMSELVES TO WAR CONDITIONS

Line Selected is in a Quiet Sector of the Allies' Battle-front

With the American Army in France, Oct. 27.—Following is the first official statement issued from American headquarters:

"In continuation of their training as a nucleus for instructions later, a contingent of some battalions of our first contingents, in association with veteran French battalions, are in the first line trenches of a quiet sector on the French front. They are supported by some batteries of our artillery in association with some French batteries. The sector remains normal. Our men have adapted themselves to actual trench conditions in the most satisfactory manner."

**First Shot of War.**  
American troops are in the first line trenches on the French front. The artillery fired the first shot of the war at 6 o'clock on the morning of a recent day at a German working party. There has been intermittent artillery fighting since.

The helmeted infantry marched in without the knowledge of the enemy on the same night, through rain and mud. The French soldiers in the trenches welcomed them enthusiastically.

The nearest enemy trench is several hundred yards away. The sector is one of the quietest on the front. It has not been taken over, being under the control of troops under the direction of the French.

**To Send List to Wilson.**  
The Americans have shelled German positions and troops, the enemy sending shell for shell. The first casualty list will be sent to President Wilson.

The empty case of the first shell fired will also be sent to the president. It is now in possession of General Silvert. The shot was fired by a red-haired gunner and his comrades and officers assembled in the ranks cheered. Later a luncheon in the field was attended by the American and French artillerymen in celebration of the first contact with the enemy.

The gun used to fire the first shot was one of the famous French 75's. On the same day the French shelled the German positions and the enemy replied vigorously, the shells falling close to the Americans, who joined in the duel.

**To Be Relieved.**  
All troops will be relieved after a certain period by others. Thus the American expeditionary forces are getting the benefit of actual war conditions.

Standing in a little, almost deserted, shell-wrecked village well within the range of enemy guns, the Associated Press correspondent watched the troops marching up in a driving rain, over roads covered with sticky mud. The artillery had been firing all day, and as a result, the impression was given that there was considerably more activity on this front than there had been for some time.

#### Missouri Mules Haul Guns.

It was soon after bulls in the fringe and in the dark that the first machine gun hauled by Missouri mules, the drivers swathed in slickers and with straw helmets over their eyes, came up on the road beside a dark canal. There was a long line of these and then came some mule-drawn kitchens, giving off a heavy odor of warm food.

All passed in silence. The last gun carriage had sprouted on it the form of a soldier, who had been taken ill and who was being held on by two of his comrades.

Through another street, paved with cobble and its sides lined with gaunt skeletons of shell-wrecked houses, came the sound of the tread of many hobnailed boots, and in the darkness the dim forms of men could be seen, marching.

The cautious flash of an electric pocket lamp disclosed that they were American infantrymen, packs on their backs, rifles on their shoulders, rain glistening on their helmets, the wind whipping the bottoms of their coats around their legs which were moving with machine-like precision.

**Had Marched Miles.**  
The Americans swung down the street apparently as proud as on dress parade, notwithstanding they had marched miles from the billets where they have since been coming by motor trucks and railways from the instruction centers. As the ranks passed, every now and then a soldier could be heard whistling softly to himself, his nearby comrades listening silently and sentimentally to the popular pieces.

**Whistled "Tipperary."**  
Finally from the rear came the whistled strain of a new tune, and (Continued on Page Three)

### WEDNESDAY TO BE CORN DAY

Fargo, N. D., Oct. 27.—Hereafter, every Wednesday will be "corn day," and every Friday will be a "meatless" day in North Dakota, according to a proclamation issued by Dr. E. F. Ladd, state food director.

North Dakota hotels and restaurants have assured their hearty cooperation in the matter and housewives throughout the state are earnestly requested to remember the two days each week.

### BURLEIGH COUNTY SCHOOLS TO ORGANIZE JUNIOR RED CROSS: 300 GIFT KITS FOR SOLDIERS

Active Campaign to be Launched to Secure More Workers for the Burleigh County Chapter. Material at Bismarck Red Cross Workroom for Many Volunteers.

Junior Red Cross work was organized last evening at a meeting of the executive committee of the Burleigh county chapter of the Red Cross. Rev. George Buzzelle will organize the boys and girls of the county into a Red Cross unit which will stimulate interest in this great war relief movement and also promote patriotism of the highest type in the schools of the city and county. The school authorities are enthusiastic over the outlook and Supt. Martin and his staff have extended their hearty co-operation.

**Regan Holds Honor.**  
Regan has the distinction of organizing the first Junior Red Cross. Rev. Buzzelle broached the matter while speaking for Liberty bonds and the children insisted upon joining at once and twenty-four came forward and paid the dues of twenty-five cents.

President Wilson has issued a special appeal asking the children of the nation to join in this work. Anna Dees Talbot in the current issue of the Red Cross magazine has this to say upon how the schools can assist in this movement.

**What Children Can Do.**  
"Do we realize that there are twenty-two million children in all the schools of this country, who are most of them anxious for a chance to do what they can to help in Red Cross work? In the state of New York, for instance, as long ago as last March the school girls were given an opportunity of showing their willingness and the result was that three thousand girls made 15,000 articles by May 1, working on an average of one hour a week."

## CAPTAIN WELCH MADE AIDE DE CAMP TO DIVISION COMMANDER; MASONIC GUARDSMEN ASK LODGE

**Military Ability of Veteran from Bismarck Recognized in Handsome Promotion Following his Good Work on Liberty Loan at Camp Greene—Application for Charter Made by Level and Square Men—Dickinson Boy first Groom at Carolina Post—Censorship Established to Prevent News Leaks.**

Camp Greene, Charlotte, N. C., Oct. 24.—(By Mail.) Captain A. B. Welch, who has been with Major J. C. Welch of the Liberty loan work has been notified that he has been appointed aide-de-camp to the commanding officer of the division. Captain Welch is a native of North Dakota, and has been in the service for about six years. This is the only change at headquarters that has been reported recently.

### Liberty Loan Fund.

The Liberty loan fund at Camp Greene today was \$1,101,209 at Major J. C. Welch's office, where the daily returns are tabulated.

Special thanks are due to the division co-ordinating officer, Major L. L. Bolles, Q. M. C. U. S. N. G.; to Capt. A. B. Welch, aide de camp, his assistant; to the regimental and separate unit co-ordinating officers and to the committees appointed in each organization to aid in obtaining the subscriptions.

## HE STEERS URUGUAY THROUGH WAR CRISIS

President Feliciano Viera of Uruguay whose term extends until 1919, is well fitted to handle the affairs of his country in the crisis following its recent break of relations with Germany. He was minister of the interior before his election to the presidency, and knows all the ins and outs of Uruguay politics.

main floor of the auditorium in speaking. The band's program was highly complimented by the audience.

**Guard Camp Praised.**  
"Colonel Fraire is to be commended," said Mr. Norton, "for the manner in which the First North Dakota, the 16th United States infantry, has pitched into the army game. I have today gone over the camp and there is not a better kept regimental camp in the whole reservation. Everything in the First North Dakota presents a spick and span appearance. The barracks are symmetrical, and to my mind, perfectly laid out. Sanitation seems to be the main item which has received attention."

Speaking of the camps, Mr. Norton said: "Camp Green is far superior to Camp Meade, 26 miles from Washington, and to Minneola, N. Y., both of which I have visited."

**Censorship Established.**  
Censorship has been clamped on here. What this means in a mammoth camp like this where, for instance, the North Dakota regimental postoffice alone handles more mail daily than any town in the home state, except Grand Forks, Fargo and Minot, can easily be appreciated. A censor company of 30 men will read all outgoing letters, open all outgoing packages and in every way act to prevent any information concerning camp activities which might prove of value to reach any spies.

Court martial, reduction in rank or imprisonment will be meted out to men and officers alike who in the future write any information concerning the movement of troops.

**Announcement Follows Rumor.**  
This was the announcement made today following the flooding of the telegraph office in Charlotte, N. C., last night by men and officers who were wiring home, following the circulation of a rumor that the troops were to leave here in the near future.

"Any man, be he officer or private, who, despite his own feelings, would wire or give out information which might be of use to the enemy or to the enemy spies, is not deserving of the honor paid him when he was furnished with the khaki uniform, emblematic of service under Old Glory," said one high military officer today concerning the action of some of the men.

The rules which the boys will be expected to follow are summed up in "Keep what you know to yourself."

**Troop Movement Secret.**  
Information will be restricted concerning: movement of troops, possible or probable; any manner of information concerning the number of troops in a cantonment or division; any description or definite details concerning the drills, bayonet practice or use of rifle, and military information whatsoever which might be of use to the enemy.

**Masons Want Lodge.**  
A petition signed by approximately 200 or more Masons in the service, with the First North Dakota regiment, the 16th infantry, will go forward within a day or so to the Grand Lodge of Master Masons of North Dakota, asking that a special dispensation be given by the North Dakota grand lodge for a military lodge to be under the control of the home state organizations.

Captain T. S. Henry of headquarters company of Valley City of the North Dakota grand lodge; Colonel J. H. Fraire, Lieutenant Colonel Geo. C. Grafton, and a dozen of the other officers are back of the movement.

**Dickinson Boy Captive.**  
Meeting only last Thursday for the first time, Robert Deacater Cook, Dickinson, N. D., machine gun company with the 16th United States infantry at Camp Greene, and Miss Gertrude Savage, daughter of Harrison Savage, were married Tuesday.

"We asked the soldier boy to go to church with us. He did, three evenings straight," said the girl's mother. Rev. Proehl, chaplain of the First North Dakota, performed the ceremony. It was the first wedding in Camp Greene.

### FUNERAL SERVICES MONDAY.

Last Rites at St. Mary's for Late Miss Hartnett.

Funeral services for Miss Alice Hartnett, aged 24, daughter of John Hartnett of Eighth street, who died Thursday evening in the family home after a three years' illness, will be conducted Monday morning at 9:30 a. m. in St. Mary's pro-cathedral.

Miss Hartnett was a member of St. Mary's church. She was born in Westport, Minn., and resided in this state until coming to Bismarck three years ago. The deceased's mother died six months ago. Friends of the family are asked to attend the services at St. Mary's. Interment will be made in St. Mary's cemetery.

# America Locks World's Pantry Against the Kaiser

The newspaper press of America, as shown in the very comprehensive article which occupies the leading place in the issue of THE LITERARY DIGEST for October 27th, is generally concerned with the thought that the absolute embargo now jointly decreed by England and the United States against Germany's neutral neighbors is, in the words of the New York Sun, "the deadliest of all weapons for the destruction of Germany," and one which she fears, according to The Tribune, New York, "even more than the drum-fire of the battlefield." The war is now "blockade against blockade," declared Deputy Lemery, of the French Parliament, a few days ago, and at the recent Allied conference in London, it was stated that the new blockade formula, if strictly applied, "will make it impossible for Germany to continue the struggle."

For a full account of the probable effect of the Allies' embargo action upon Germany, do not miss reading "The Digest" this week. Among other topics that will engage your interest in this number are:

Attorneys Goss & McGee Have Appeal Papers in Removal Case Prepared

Minot, N. D., Oct. 27.—President W. S. Shaw of the Minot city commission will appeal next week to supreme court from the decision of Judge Cole in the Ward county district court denying Shaw's application for a writ prohibiting Governor Frazier from removing Shaw from office on charges growing out of the Magic City's

## Hebing Pimples Kept Mr. Simpson Awake for Hours. Suffered Badly. Healed By Cuticura.

"I suffered very badly with my head which came out in little white pimples. They would go away in a week and then come back again. They festered and came to little white heads and my scalp was sore. It itched and burned so badly I would just lie awake for hours with the pain and I used to have big eruptions on my head from scratching. My hair was also thin and dry."

"I was told to wash my head with salt and water, but it did no good and I tried but with no relief. Then I sent for a free sample of Cuticura Soap and Ointment. I afterward bought more and when I used two large boxes of Cuticura Soap and two bars of Soap I was healed." (Signed) Charlie Simpson, Oak St., River Grove, Ill., June 7, '16.

## Burleigh Pioneers to Hold Annual Reunion at Columbians' Hall

The Pioneers' association of Bismarck and Burleigh county, at an executive committee meeting Thursday evening at the home of Mrs. Mary McLean on First street, decided to hold its third annual reunion and business session at the Knights of Columbians hall the evening of November 8.

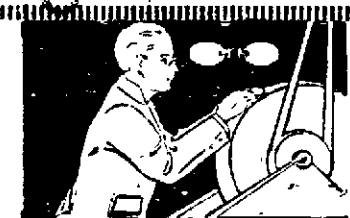

After a brief business session, the meeting will be given over to old-time dancing, cards and other social diversions. A special invitation is extended to the country cousins, as an effort is being made to make these annual gatherings real reunions of all

of the old-timers of Burleigh county and Bismarck, who for 25 years or more have worked hand in hand to make their county and city what they are today.

The first reunion of the association was held at the Commercial club rooms November 19, 1915, in celebration of "Appreciation Week." Several hundred members were enrolled; a splendid time was enjoyed, and a permanent organization formed. The 1916 reunion was equally successful, and the pioneers hope to make the 1917 meeting "bigger and better" than any of its predecessors.

### MANY SOCIAL EVENTS PLANNED FOR TEACHERS

Among the early announcements of social events planned for the visiting educators coming to the city next week to attend the annual meeting of the N. D. Education association is a banquet for Thursday evening given by the Bismarck Alumni of College and University men. The Bismarck alumni is making extensive arrangements for this event which will be one of the largest to be staged here during the week.

## Whole Slope to Unite Here in Entertainment of State's Educators

Convention to be Held Here Next Week is Tribute to all of Western North Dakota Which will Join in Reception of Guests—Plans for Big Meeting Materializing.

The entire Slope unites next week with Bismarck in extending to North Dakota's educators that hospitality which is so characteristic of the Missouri valley and the sweeping prairies of the west. The Slope joined with Bismarck last fall in tendering an invitation to the North Dakota Education association, and that Bismarck is to enjoy the honor of entertaining this great body next week is due as much to the earnest cooperation of C. L. Love, superintendent of the Mandan public schools, and F. S. Berg, superintendent of the Dickinson schools, as to the persuasiveness and perseverance of Bismarck's own loyal delegation—Supt. J. Maurice Martin of the city schools, Miss Laura Sanderson, then of the state superintendent's office; C. L. Vigness, then county superintendent; E. J. Taylor, as state superintendent, and Secretary W. E. Parsons, now county superintendent, and at that time assistant state superintendent.

The local committee, upon which will devolve the successful carrying out of all convention details next week, is headed by Supt. Martin and includes Supt. Love of Mandan, State Supt. N. C. MacDonald, County Supt. Parsons, Pres. A. W. Lucas of the city committee, C. L. Burton of the Bismarck board of education and G. N. Keniston of the Bismarck Commercial club, which joined with the local educators in inviting the convention to Bismarck.

ed as the American composer next in line to Beethoven, was born in Johnstown, Pa., and received his musical education under the best instructors in Pittsburgh. For many years he was organist at the East Liberty Presbyterian church and accompanist for the Pittsburgh male chorus. He began his career as composer of music ballads and teaching pieces for children in 1904, while living in the city. Later he became interested in Indian music and folklore and has made the study of Indian music his specialty. Today his works are sung and played on all parts of the globe.

The only regret of his appearance here is that his engagement was not Thursday night, Nov. 1, so the educators coming to the city from all parts of the state to attend the State Education Association meeting, would have had the privilege of listening to America's foremost composer. However, as Friday is the last day, it is expected that many will remain over to hear him.

**FUNERAL FOR MRS. EGAN HELD THURSDAY.**  
Funeral services for Mrs. Thomas Egan, who died in a hospital in Jamestown, were conducted Thursday afternoon in the Webb Brothers' funeral parlors and were in charge of Rev. George Luzzelle of St. George's Episcopal church of which she was a member. Interment was made in St. Mary's cemetery.

**Gifts for Soldiers.**  
The Mandan Women's Auxiliary to Co. F has completed arrangements for a house to house canvass for funds to buy Christmas gifts for the soldier boys. Mrs. L. F. Lyman, Mrs. J. W. Hingten, Mrs. C. H. Brown, Mrs. Fred McKendry and the Misses Ruth Parkin and Cecelia Connolly compose the canvassing committee. Arrangements are also being made to organize an auxiliary to Co. F in Mott.

**"MISS SPRINGTIME"**  
Klaw and Erlanger's Big Musical Comedy a Feast of Sound, Comedy, Light and Color.  
Klaw and Erlanger's musical comedy "Miss Springtime," to be presented at the Auditorium on Thursday, November 8, and one of the few outstanding successes of its kind in New York and Boston last year, was produced with a lavishness of investment and a richness of effect that will surprise even those familiar with the thorough and artistic methods of that long experienced and solidly established firm. It is a veritable feast for the sense of sight, exquisitely satisfying to the ear and is bound to arouse to the fullest extent the risibilities of everyone who witnesses its performance. The score is by Emmerich Kalman, the composer who previously won favor with "Sari" and the music is marked throughout with graceful sentiment, haunting melody and popular appeal. Such numbers as "Throw Me a Rose," "My Castles in the Air," "Some One" and "The Garden of Romance" will linger most agreeably in the memory, while among the topical numbers, "A Very Good Girl" on Sunday, "Life is a Game of Luff" and "The Old Fashioned Drama" have a hitting swing and a facility of rhyming far above the average of current patter songs.

The music, dialogue, songs and comedy work of "Miss Springtime" are enhanced by a wealth of fabric design, light, color and setting with which they are supplemented. All of the stage settings were designed and executed by Joseph Urban, who is today the foremost scenic artist of America. The big girl chorus is most attractive to look upon and has the advantage of the practiced craft of Julian Mitchell.

Frank McIntyre, Zoe Barnett, Harrison Brockbank, Hattie Burke, George Leon Moore, Frank Doane, Mae Hennessy, Alice Gaillard, W. F. Nunn and Charles De Haven are only a few of the many favorites of musical comedy in the lengthy list of principles which heads the organization. A special orchestra of 16, carried by the company, will contribute an agreeable interpretation of the charming music.

Mail orders for "Miss Springtime" can be sent in now. The prices will be 50c to \$2.

### Many Rooms Needed.

While teachers soliciting under the direction of J. Maurice Martin, the Commercial club and the hotels already have listed 350 rooms in private homes, the number is still short of the quota which it is believed will be needed.

"We already have far more requests for reservations than we can care for in the Grand Pacific and Bismarck," said Henry Halverson of the Grand Pacific today. "I am confident that not less than 500 rooms in private homes will be needed to care for all of our guests next week. Many of the convention visitors will wait until they reach the city to think of accommodations. On the third of July of last year we placed 300 guests in private homes from the Grand Pacific, and there is every reason, from present indications, to believe the demand will be much greater next week."

"Filled, absolutely everything. We're doing the best we can now to look up outside accommodations for the teachers," was the report from the McKenzie and the Northwest. "Biggest demand for rooms in our history," say the Van Horn and the Annex.

Cards have been sent broadcast over the state, warning traveling men to shun Bismarck next week and predicting that 2,000 visitors will crowd every room in the city.

Fears that the attendance might be cut down by crop shortages in some sections and war conditions in others do not appear justified today.

## Box of Red Cross Articles Shipped Thursday To National Headquarters

A large box left the Bismarck Red Cross chapter Thursday for the national headquarters as its apportionment for this period. Both knitted and fabric articles composed the long list, which follows:

Knitted Articles—Sixty-two pairs of socks; 33 sweaters, 39 mufflers and 68 pairs of wristlets.

Fabric Articles—Thirty-seven fracture pillows, 137 nightgowns, 33 bed shirts, 65 bathrobes, 13 caps, 5 pairs pajamas, 225 sponges, 2 slings, 13 linen tray cloths, 24 linen napkins, 20 pairs bed socks and a package of linen scraps.

**To Make Drive for Sewers.**  
Mrs. J. L. Whitney, the new chairman of the supply committee will inaugurate a drive for sewers and sewing machines next week. The chapter, since receiving its apportionment from the national society, has an abundance of material to be made into pajamas, bathrobes, bed shirts etc. All that is lacking is sewers. The demand for articles is growing since the beginning of cold weather and more workers must be secured. A

few hours a week is all that is asked by Mrs. Whitney and her assistants.

### Knitters Wanted.

Although many have responded to the call for knitters, more are still needed to bring the work of the chapter up to that of sister chapters in other parts of the state. The last month's articles were most satisfac-

ory and Mrs. L. A. Schipfer who is in charge of this work, is much pleased with the work and the cooperation of the women. Plenty of yarn is at the local headquarters and anyone desiring to aid may do so by calling at the chapter rooms in the Federal building for supplies.

## HEAVY OVER-SUBSCRIPTION IS A DEADLY BLOW AT GERMAN LINES' WEAKEST SPOT—PEOPLE'S MORALE

By H. N. RICKEY.

Head of The Tribune's Washington Bureau.

Washington, D. C., Oct. 27.—It is a pity that every person in the United States who has not already bought liberty bonds until he cannot possibly raise another dollar to buy more cannot spend 24 hours in Washington talking with the high officials of the government, who are charged with the responsibility of defeating Germany in the shortest time at the least cost in blood and money.

If such a thing were possible I have no doubt that ten billion dollars would be subscribed and there would be ten million subscribers.

Of course, it is impossible for any considerable number of private citizens out of the more than a hundred million in the nation, to come into personal contact with the men they have chosen to lead them.

The great mass of the public must depend on the newspapers for its information as to what public officials are thinking and saying—and the printed sheet at best is a poor substitute for the spoken word.

**Personal Survey.**  
I have spent the past two days going from department to department in this busy city for the purpose of getting what in movie parlance is known as "close up" of the views of the highest officials as to the importance of the success of the second liberty loan.

If there had been any doubt in my mind, which there was not, as to the imperative necessity of making this loan such a huge success that the world will know next Sunday morning the American people are back of their government in this war to the finish with their last dollar, these doubts would have been gone when I finished my tour.

If there is a responsible government official who does not honestly believe the result of this loan will have a direct bearing upon the length of the war, he is not among those with whom I talked.

Mind you, these men were not striving for oratorical effects and the vanishing applause that follows a high-falutin' peroration. It was just man to man—the newspaper man representing the public, who must buy liberty bonds if they are to be bought, looking straight into the eyes of the official representing the government, demanding the truth and knowing whether or not he was getting it.

**Will Shorten War.**  
I put my question something like this: "Mr. Blank, aside from the immediate financial requirements of the government, which can be met by the three billion dollar minimum asked for in this loan, do you believe a large over-subscription, say double that amount, will shorten the war and thus save the lives of American soldiers and sailors and save American dollars?"

In every case I got a quick, direct answer, something like this: "I NOT ONLY BELIEVE IT, I KNOW IT. The psychology of the situation is obvious as to admit of no question."

Then the argument would follow along this line: "If it is true that the loan's failure or only partial success would shorten the war, then it follows that the American people are not wholeheartedly in the war, then it follows that the rationality and logically that a big over-subscription would have exactly the opposite effect."

"This war is not going to end until Germany is defeated. Although Germany has been on the defensive for many months, there is still a lot of fight in her great military machine. Germany's enemies could make no greater mistake than to underestimate the powers of resistance of her armed forces."

**German Morale Weakest.**

"IF THE MILITARY MASTERS OF GERMANY COULD ABSOLUTELY COUNT UPON THE UNDYING SUPPORT AND LOYALTY OF THE sixty million people who make up the German population, they might be able to hold their enemies at bay for years. What this would mean translated into American lives and American dollars before Germany collapsed, which, of course,

she would eventually, can be appreciated when we think of what France and Great Britain and Russia and Belgium and Italy and our other allies have suffered during the past three years.

"But fortunately for us and our allies, as well as for the German people themselves, the RUSSIAN MILITARY MASTERS CANNOT COUNT ON THIS UNDYING AND LOYAL SUPPORT. It would be too much to say that a revolution in Germany is imminent, although even this is possible. Certainly the signs all point to an increasing restlessness and loss of morale among the German people, which, whether or not they end in revolution, are sooner or later bound to weaken the military power to the point that the allies can dictate terms of peace."

"NOTHING that has happened since the great war began has so affected the morale of the German people as the ENTRY OF AMERICA into the war and the vast preparations that are going forward here to develop our military strength. Everything we do to prove to the German people that the unlimited resources and wealth of America are back of our government in its determination to win the war is an offensive against the weak-

est part of the German line GERMAN MORALE.

A 16-inch Shell.  
The difference in the effectiveness of a six billion dollar liberty loan drive and a three billion dollar liberty loan drive against the German morale line is just the same as the difference between trying to blast through the Hindenburg line with 16-inch high explosive shells and trying to do it with chrapel.

I would feel that I am remiss in my duty if I did not deliver to every reader of this newspaper this message direct from the men who know more about the war than anyone else in this country can know, and who are as vitally interested in saving American lives and American dollars as anyone possibly can be.

If you want to go to bed tonight feeling that you have done everything in your power to hasten the defeat of Germany, buy all the liberty bonds you can pay cash for or get credit for. It is not only an investment that will pay you four per cent interest and increase in value from year to year, but it is an investment that will pay you interest in something far more valuable than money.

If you will pay your interest every day in the knowledge that you have done your full duty as an American citizen.

### Trees Only Need Proper Care.

We hear much these days of tree surgery, but a late bulletin of the Missouri Botanical Gardens calls attention to the fact that if trees are properly planted and cared for, there would never be need of tree surgery for disease, etc., but only for the necessary pruning to be done each year.

### PAYING ASSESSMENT, PAYING DISTRICT NO. 1.

Notice is hereby given that a special assessment for the construction of paving in Paving District No. 1, in the city of Bismarck, has been levied against the lots and tracts of land specially benefited by such improvement, in the sums set opposite the respective descriptions of such lots and tracts, to-wit:

# TOWNLEY MUM ON LEAGUE WAR CHEST'S BERTH

Declines to Disclose Name of  
Bank Where Nonpartisan Funds  
are Deposited

## MINNESOTA INQUIRY "PURELY POLITICAL"

Former Congressman James Man-  
ahan Makes Declaration—That  
Audit Company

Upon advice from ex-Congressman  
Manahan that he could do so with per-  
fect safety, President A. C. Townley  
of the Nonpartisan league, appearing  
in bankruptcy before Referee H. F.  
O'Hare Friday afternoon declined to  
give the name of the bank or banks  
where the league war chest is stored.  
He also forgot to remember his tes-  
timony before the Minnesota public  
safety commission as to the approxi-  
mate amount collected by the league  
since its organization. "I know no  
more about that than any average  
citizen," said Mr. Townley. "The av-  
erage citizen understands that you

# Two Acts of Heroism in North Dakota Rewarded by Carnegie Commission

Pittsburgh, Pa., October 27.—J.  
Norris Ogland, Williston, N. D., is  
among those named here last evening  
by the Carnegie Hero fund commis-  
sion. He attempted to save John L.  
Townsend from drowning at Willis-  
ton, June 9, 1916. Mr. Ogland re-  
ceives a bronze medal.  
Ragnvald Gotaas, Rothsay, Minn.,  
also receives a medal for saving Os-  
car L. Dahl from suffocation by gas  
in a well at Plaza, N. D., June 11,  
1916.  
Other northwest awards are:  
Eunice A. Dickey, Clarkston, Wyo.,  
saved Charles Banister from suffoca-  
tion in a well at Gillette, Wyo., July  
12, 1916.  
Benjamin E. Arnold, deceased,  
Brainerd, Minn., died attempting to  
save Hulda Juenger from drowning at  
Hubert, Minn., July 5, 1916. Medal to  
mother.  
G. Clifford Cress, 906 W. Boulevard  
street, Lewiston, Mont., saved Mildred  
K. Spicer, aged nine, from drowning  
at Lewiston, Mont., August 20, 1915.  
Leo A. Griffin, deceased, 37 west  
Hall street, Battle Creek, Mich., died  
attempting to save Alma Finney, from  
drowning at Battle Creek, Mich., July  
23, 1916. Medal and award to widow  
and children.

testified recently that the league col-  
lected over a million," suggested Fran-  
cis Murphy of Minot, appearing for  
the creditors.

"That statement," said Manahan,  
"is clear evidence of the political na-  
ture of this inquiry. Mr. Townley's  
hearing before the Minnesota public  
safety commission was purely politi-  
cal."

President Townley reiterated time  
and again that the only money he has  
received from the league, directly or  
indirectly, is his salary of \$200 per  
month for the personal use of him-  
self and his family and his expenses;  
that he has no interest in any busi-  
ness enterprise of any kind directly  
or indirectly connected with the  
league.

The Nonpartisan Leader Co. he  
stated is a co-partnership between A.  
J. Fox and Ed Wood, a son of F. B.  
Wood. No one else, he stated, has  
any interest in it. This co-partner-  
ship publishes the Leader and the  
Courier-News and pays Mr. Townley  
\$100 the month for directing the edi-  
torial policy of these publications. He  
denied having any interest direct or  
indirect, approximate or prospective  
in the Nonpartisan Leader, or that he  
had any promise of any future gain.  
He admitted having received his sal-  
ary of \$100 per month as editorial  
supervisor from the date the Leader  
was launched. No profits from either  
the Courier-News or Nonpartisan  
Leader, he asserted, had ever been  
paid over to him, and there existed no  
understanding that they ever will be.  
The engraving company, he stated, be-

longs to the same "layout," and he  
disclaims any interest in it.

The Equitable Audit Co. of St. Paul  
came in for investigation, and Town-  
ley testified that it was employed  
merely to audit league books, and  
that he held no interest in the cor-  
poration.

# "YOUNG MOTHER HUBBARD" HOLDS HEART APPEAL

Little Mary McAlister's Latest Es-  
say Release Full of Laughs  
and Tears

If you want to be carried back to  
the days of the old-fashioned home,  
cookie baking and other youthful joys,  
just see Little Mary McAlister in  
"Young Mother Hubbard." This ex-  
cellent comedy drama will instantly  
life the burden of many years from  
your shoulders, carrying you back to  
the days when you scorned shoes and  
stockings in summer.

Critics who have seen the picture at  
private showings in the Essanay stu-  
dios declare Little Mary has done the  
best work of her career in "Young  
Mother Hubbard." The child caught  
the spirit of her part perfectly, and  
carried out her role so well that she  
seems really to be an abandoned or-  
phan, the character she plays.

The picture is intensely human, and  
has a heart appeal that will bring  
tears to the eyes of even those who  
ordinarily laugh at persons who cry  
over movie situations. On the other  
hand, there is a wealth of humorous  
situations to offset the pathos. The  
picture is so well balanced that the  
laughs come just in time to relieve the  
tenseness of the pathetic scenes, and  
the ending is so happy that everyone  
will leave the theater with a smile  
of contentment.

"Young Mother Hubbard" depends  
almost entirely upon a group of chil-  
dren for its action. There are adults  
in the picture, of course, but they are,  
for the most part, in the background.  
Little Mary is supported by an excel-  
lent cast of juveniles.

"Young Mother Hubbard" will be  
shown at the Bismarck theater to-  
night.

# KRAGS TO ARM BISMARCK HOME GUARD HUNDRED

The trusty old Krag—the rifle which  
won the Spanish war for Uncle Sam—  
was adopted last night by the Bis-  
marck home guard as the official arm  
for its hundred members. The mem-  
bership of the guard was swelled by  
the election of a half dozen candidates,

**THE production of wheat, flax, barley and the average size of farm.**  
There are 2416 North Dakota Farms each over 1,000 acres. The  
crop averages \$2,762.54 to a farm. You Dakotans can afford the  
thousands of automobiles you own.

Nevertheless, you can not in economic righteousness afford to ignore  
the economy in the lasting service of Goodrich Tires.

## Buick Valve-in-head Motor

The reason for the remarkable power and economy of  
the Buick Valve-in-Head Motor is very simple. The cylinder  
has no pockets on top as have all other types. Therefore  
it takes less gas to fill, less power to compress, and every  
ounce of firing force comes down on the piston. For this re-  
ason you will find racing and aeroplane motors to be almost  
without exception of the valve-in-head type. In these days  
of necessary economy, the consumption of gasoline is a most  
important matter and in this the Buick has proven its worth.

## RADIATOR and HOOD COVER

A cracked cylinder or bursted tubes in your radiator are the  
inevitable results of freezing weather unless you are prepared  
for winter.

A sudden cold snap that you are not expecting is apt to  
catch you unawares, and bang goes the water jacket. This  
means that your car will be out of commission from one to  
three weeks, and the cost of repairs is way beyond the cost of  
a preventative.

Buy an invincible radiator and hood cover when the weather  
is mild and when winter comes you will be ready for it, and  
you will laugh at the coldest weather.

We have in stock complete sets for the Ford, Dodge, Maxwell  
and Overland. Owing to the numerous different styles needed  
for other cars, we do not stock them, but take orders and send  
to the factory. Order yours now so as to be sure to have it  
when you need it.
